9 TIMING AND RANKINGS

The timing and data processing service will be managed by Detecht srl (mysdam.net/home-page/network-mysdam-official-timers/detecht/), MySdam partner (mysdam.net).

The measurement of times and the processing of the rankings will be carried out with a disposable transponder chip system.

The time of each athlete will be recorded electronically when they pass the starting line at the start of the race, upon their arrival with passage on the Finish line and at the "turning point" of the route. The Organizing Committee reserves the right to insert any intermediate control timing points.

A general ranking and category rankings will be drawn up (see *13-Categories in competition*).
